KSU-HS

### College of Science and Health Professions

Welcome to the College of Science and Health Professions (COSHP) at King Saud bin Abdulaziz University for Health Sciences (KSU-HS). KSU-HS was established in April 2005 as per the directive of the Custodian of the Two Holy Mosques, King Abdullah bin Abdulaziz. COSHP aims at preparing high school graduates with the knowledge, tools and ethics necessary for pursuing a degree in the health science professions. This includes English language skills essential for studies and communication, knowledge of basic sciences necessary as the building stones for degrees in the medical and health professions, as well as a focus on empathy and patient care. This university also emphasizes developing students' research skills in order to become active members in the advancement of future medical research. Our goal is to create national citizens working with international professional serving the local community.
